

Virtual therapy

Mental health affects every aspect of our lives. In the workplace, where stress and deadlines can take a toll, it's especially important to pay attention to your wellbeing.

What is virtual therapy?

Through your program, you have access to confidential virtual therapy, provided by BetterHelp, at no cost to you. You can benefit from up to 3 pre-paid counseling sessions, per year. Counseling is available for the entire family—individuals, couples and teens (with parental consent and in accordance with applicable law and clinical appropriateness).

You can choose from one of four modalities: text messaging exchange over a week, live phone session, live video session or live chat session. You can also toggle between modalities while in therapy. For example, you can choose to chat with a therapist online one week and schedule a video session the next week. Register online or by phone to get started.
